

About Gensler

Gensler is a global design firm that partners with clients to create more livable cities, smarter workplaces and more engaging leisure destinations. Our 5,000 professionals networked across 46 locations believe quality design can transform organizations and improve people's lives. Since 1965, we have helped clients achieve measurable business and organizational goals, delivering projects as large as a city and as small as a task light for an individual desk.

Our Client Relationships

During the last year, Gensler worked in 114 countries with 2,390 clients. They represent:

- 55 of *Fortune* magazine's 100 top Global 500 companies
- 40 of the 50 top-ranked Fortune 500 companies
- 4 of the top 5 energy companies in the Americas
- 9 of Interbrand's 10 Best Global Brands
- 25 of the top 25 largest US law firms
- 43 of the biggest US companies by market value
- 8 of the top 10 retailers in the US
- 4 of the 5 largest companies in China
- 10 of the top 10 consumer products companies

Expertise

Gensler is organized to support clients at every stage of the design cycle, from initial strategy and design planning through implementation and management. Unique among design firms, our integrated network serves a cross-section of the global economy through the following practice areas:

Arts & Culture	Energy	Mixed Use
Aviation & Transportation	Entertainment	Not-for-Profit
Brand Design	Financial Services Firms	Planning & Urban Design
Commercial Office Building Developers	Government	Product Design
Consulting	Health & Wellness	Professional Services Firms
Consumer Products	Hospitality	Residential
Convention Centers	Landlord Services	Retail
Corporate Campuses	Life Sciences	Retail Centers
Defense & Aerospace	Media	Sports
Education	Mission Critical	Tall Buildings
		Technology

Revenues

Gensler's worldwide revenues for fiscal year 2014 were \$915 million.

Sustainable Design

Gensler regards sustainable design as a guiding principle for all building and interior projects. As designer of the first large-scale U.S. office building to use underfloor air systems, Gensler has been at the forefront of the movement for responsible design that considers the impact of decisions made today on our lives tomorrow. Additional pioneering green activities include designing the first LEED®-certified retail rollout prototype (PNC Bank), the first LEED-certified data center (Fannie Mae), and the first LEED-certified car dealership in the U.S. (Pat Lobb Toyota of McKinney, Texas). Gensler has more than 1,100 LEED Accredited Professionals. In 2005, Gensler received the Leadership Award for Organizational Excellence from the U.S. Green Building Council for its commitment to the advancement of sustainable design.
